ABOUT ME

Junior Full-Stack Developer with a background in journalism and financial management. I build complete web applications — from React frontends to REST APIs with Node.js, Express and MongoDB — with a focus on UX/UI, best practices and well-organised code. I bring a business perspective that goes beyond code, combining experience in communication and finance with the development of intuitive, responsive digital products. Completed Full-Stack training at TechOf in October 2026.

TECHNICAL SKILLS

Frontend	HTML · CSS · JavaScript · React · Tailwind CSS
Backend	Node.js · Express · MongoDB · Mongoose · SQL · REST APIs · JWT
Tools	Git · GitHub · Firebase · Supabase · Stripe · Cloudinary · Postman · Vercel · Figma (basic)
Professional tools	Office 365 · Sage Accounting · GestObrig · Digital CRM

LANGUAGES

Portuguese (Native) · Spanish (B2) · English (B1) · French (A2)

PROJECTS

Mentora — TechOf final project · React, Node.js, Express, MongoDB, Stripe

- Paid mentorship platform with three user roles (mentor, mentee and admin), social feed, session booking and online payments.
- REST API with JWT authentication, server-side generation of available time slots and payments via Stripe Checkout, with webhook confirmation and refunds.
- Per-offering chat, ratings, notifications, image upload (Cloudinary) and an admin panel with moderation and statistics.
- Serverless deployment on Vercel: mentora-frontend-zeta.vercel.app/mentora · [GitHub](#)

Agendly — React, Supabase · pair project

- Online booking platform with client CRM, interactive calendar and financial dashboard with charts.

Página & Cia — React, Context API

- Bookstore e-commerce with filterable catalogue, cart, multi-step checkout and authentication.

Focus. — React, Firebase

- Task manager with Google Login and cloud data persistence (Firestore).
